INTERNATIONAL Water Power & Dam Construction

INDEX 1978

VOLUME THIRTY

January to December 1978

INDEX

* Denotes an illustrated feature article

† Denotes an abstract

§ Denotes a news item

‡ Denotes an R&D item

The months of issues are denoted by Roman figures

A

Afghanistan, Khanabad ADB loan II 7§

Africa—
Bura irrigation project, Kenya .. VIII 5§
Chinese carp for South African dams ..... VI 3§
Cunene river diversion refused by Angola ..... X 5§
Ethiopian dam troubles Egypt .. VII 3§
Gates for Volta river ..... X 7§
Gitaru scheme, Kenya, commissioned ahead of schedule—Coxon ..... IX 55*
Gwembe, Zambia, Netherlands loan for ..... III 9§
ICOLD at Cape Town ..... XII 50*
Inga II turbines ..... XI 5§
Jebba project, Nigeria ..... II 3§
Kenya's hydro potential ..... I 5§
Kpong, Anglo-Japanese consortium for ..... IV 9§
Lower Benue basin, Mada river project ..... I 7§
Malawi moves toward hydro .... I 3§
Mozambique, Cabora Bassa power for ..... VIII 3§
Nigeria, hydro development in .. XI 62†
Progress at Umzimvubu ..... I 5§
Rhodesia, dam construction in (ICOLD report) ..... II 9§
Senegalese River Valley, finance sought for ..... IV 9§
Steenbras progress, South Africa IV 5§
Swakoppoort dam model studies—Ravenscroft and Jordaan ..... XII 48*
Swaziland sugar, irrigation for .. VI 7§
Tana river multi-purpose dam, Kenya ..... V 9§
Tanzania hydro studies ..... IX 5§
Tocantins diverted for Tucurui, Amazonia ..... IV 5§
Transkei hydro plans ..... VI 9§
Turbines for Africa ..... XII 5§
Usuto's Kriel scheme, costs rise VIII 9§
Zambezi ecosystem upset ..... VII 3§

Argentina—
Cabra Corral progress ..... VI 5§
Futaleufu hydro complex ..... V 5§
Itaipu, flow problem at ..... IV 3§
Salto Grande, a "world example" XII 5§
Yacyreta-Apipe, 15 bids ..... V 9§

Asbestos cement field lathe ..... III 54

ASEA Group report ..... XII 9§

Asian Development Bank—
Afghanistan loan for Khanabad project ..... II 7§
Mindanão, fifth plant, loan for .. III 9§
Papua New Guinea, loan for mini plants ..... I 7§
Philippines, Allah irrigation project ..... VII 9§
Power loans ..... VII 9§
Sri Lanka loan ..... V 9§

Atlas Copco report ..... XII 9§

Australia—
Dams since 1970 (ANCOLD report) ..... I 7§
Dartmouth dam, impounding begins ..... III 3§
Salt problem in Murray river .... VII 5§
SMEC, better year for ..... VI 9§
Tasmania's hydro sets new record ..... VI 7§
Thomson dam, tunnel for ..... III 9§

Austria—
Environmental problems on the Drau ..... XII 58†
Solar and hydropower combine—Weyss ..... II 32*

Axle load scales ..... VII 64

B

Bitumen compactor, automatic .... VI 68

Brazil—
Agua Vermelha, intake and penstock design—Besker ..... X 46*
Itaipu problems deepen ..... XII 3§
Parana new project ..... VII 3§
Rio Pardo dam failures, gate operators blamed ..... III 5§
Salto Santiago, generators for ... III 9§
São Simão turbine started ..... VIII 3§
Sobradinho dam inauguration ... VIII 5§
Tucurui dam largest in Brazil ... XII 59†
Xingu river project planned ..... XI 7§

Britain's small hydro acknowledged II 5§

C

Canada—
BC Hydro increases sales ..... X 7§
Dam safety in British Columbia—Hunt and Round .. I 27*
BC transmission station, Bi-Pole Two, in operation ..... XII 5§
Electricity production ..... VIII 9§
Fundy tidal power, reassessing—Clark ..... VI 35*
Fundy tidal power sites proposed V 3§
Hydro, false economy to halt ... XII 9§
Hydro Quebec progress ..... IX 9§
Hydro Quebec, Swiss loan for .. V 9§
Kootenay studies ..... IX 5§
La Grande, earth and rockfill dams—Paré, Larocque and Schneeberger ..... I 38*
LG-2 excavation controlling ..... VI 66†
Manic Outardes complete ..... XI 3§
Manitoba, hydropower in—Bowden ..... I 21*
Mica project overruns finance .. VI 3§
News in brief ..... V 9§
Revelstoke cofferdam contract .. X 7§
Richelieu dam recommended .... III 5§
Runner transport problem for BC Hydro's Peace Canyon project IX 5§
Wreck Cove, environmental studies for—Schiefer and Eedy I 31*

Cavitation—
Model tests for cavitation ..... XII 59†
Test rig ..... II 54
Zero cavitation in turbines—Pawlikewich and Sinclair ..... I 46*

Chalk, hydraulic properties of ..... III 51†

Channel, dual-purpose, for Israel and Jordan ..... I 5§

China, hydro in ..... XII 58†

Cofferdams *see* Dams, General

Colombia—
Hydroelectric resources of Colombia—Oramas ..... III 41*
San Carlos plant, IDB loan ..... VI 9§
Small hydro plants ..... XI 5§
Soviets finance dam for Colombia V 5§

Concrete—
Accelerator, sprayed ..... I 68
Aggregates in concrete mixes ... I 64
Curing liquid ..... VIII 62
Test hammer, concrete ..... IV 58
Tester, concrete ..... III 56

Conferences—
Civil engineer and policy making, Durban ..... I 5§
Earthquake engineering, Stanford, California ..... XII 7§
Finite elements in water resources, London ..... V 7§
Flow-induced vibrations, Germany ..... V 7§
Fluid geology, Durham ..... VIII 7§
Geology, engineering, second Brighton congress ..... X 9§
Geotechnical exhibition and conference, Illinois ..... X 9§
Geotechnical symposium and seminar, Colombia ..... VIII 7§
Hydrological computations for water projects, Leningrad ..... XI 7§
Hydrotechnology and water resource development, Toulouse ..... IX 7§
ICOLD at Cape Town ..... IX 11§
XI 7§
XII 50*
International Tunnel Association, Tokyo ..... III 48§
Rock mechanics, fourth international congress, Switzerland XI 7§
Rock mechanics related to dam foundations, Brazil ..... V 7§
Safety of dams, Stanford, California ..... VIII 7§
X 57*
XI 52*
Soil mechanics and foundation engineering, Brazil ..... V 7§
Soil mechanics, elementary, Utah XII 7§
Soil mechanics in perspective,

Mexico ..... X 9§
Stability of tunnels by the convergence-confinement method, Paris ..... V 7§
Symposia at a glance ..... VIII 7§
IX 7§
X 9§
XII 7§
Underground rock bolting, Italy V 7§
Water resources, third congress, Mexico ..... XII 7§
Wave and tidal energy, England IV 9§
World energy conference, tenth—Shaw ..... I 58*

Construction Equipment—
Compressor, single-screw ..... I 63
Construction plant supplement .. XI 27*
Crane capacity, increasing ..... V 64
Crane, truck, wire-rope ..... II 58
Cranes, self-propelled telescopic X 64
Crawler excavator bucket ..... II 56
Crawler excavators, hydraulic .. VIII 62
Crawler rig series, hydraulic ..... VII 64
Drum mixer, reversing ..... I 66
Dump truck ..... XII 60
Dump trucks, articulated ..... VI 68
Dump trucks at Skerton Weir, Lancaster, England ..... III 56
Lift truck for rough terrain ..... I 66
Rock anchors at Tarbela ..... II 44*
Screen, vibrating ..... XII 62
Tracked transporter ..... VII 64
Tractor, track-type ..... X 64

Cranes *see* construction Equipment *and* Power Stations

Cyprus—
Asprokremmos dam contract .... VII 9§
Dams in Cyprus ..... III 7§

Czechoslovakia, Gabcikovo-Nagymaros reservoir ..... IV 3§
XII 7§

D

Dams, Concrete—
Agua Vermelha, intake and penstock design—Beaker ..... X 46*
Beznau dam replacement, Switzerland ..... XI 62†
Bhakra dam instrumentation ..... III 51†
Concrete compaction in the USSR ..... III 52†
Concrete creep in dams ..... VIII 60†
Fontana dam, Tennessee, vertical slot to stop cracking ..... VI 65†
—Gabcikovo-Nagymaros dam, Czech-Hungarian, on Danube IV 3§
Pendulum position without touching ..... IV 64‡
Revelstoke cofferdam contract .. X 7§
Reza Shah Kabir, Iran, intake at—Eberhardt ..... III 34*
Richelieu dam recommended, Canada ..... III 5§
Rolled dry lean concrete gravity dam—Moffat and Price ..... VII 35*
Santa Felicia dam, California, Seismic studies ..... IV 7§
Swakoppoort dam model studies, Africa—Ravenscroft and Jordaan ..... XII 48*

Dams, Embankment—
Aslantas dam design, Turkey—Vorobjev ..... V 37*
Asphalt facing for Sigalda dam, Iceland—Thorlaksson, Olafsson and Jóhannesson .... VIII 33*
Asprokremmos dam contract, Cyprus ..... VII 9§
Boyd's Corner dam, USA, in danger ..... X 3§
Dam stability, piezo-electric instrument for ..... IV 62‡
Dartmouth dam, Australia, impounding begins ..... III 3§
Forced vibration tests on earth dam—Scott and Abdel-Ghaffer X 41*
Hydraulic fill dams, seismic stability of—Leps, Meehan, and Strassburger ..... X 27*
XI 43*
La Grande, earth and rockfill dams—Paré, Larocque and Schneeberger ..... I 38*
Los Angeles dam safe from earthquakes ..... XII 59†
Megget dam, Scotland's highest, for Lothian water supply ..... IX 50*
Phoenix flood detention dam, USA ..... VI 7§
Pore pressure and movement in embankment dams—Penman . IV 32*
PVC membrane for granular dams III 52†
Rockfill dam developments ..... IV 66†
Rockfill dams, movement analysis ..... XI 62†
Svartevann dam, Norway's highest ..... VIII 41*
Tarbela: plans, problems and success—Binger ..... VII 29*
Tarbela stilling basin model tests I 3§
Teton dam failure ..... XII 59†
Teton dam, wet seam found ..... III 5§
Tucurui dam, Brazil, one of world's largest ..... XII 59†
Uplift pressures in earth embankments ..... XI 62†

Dams, General—
Alaska dam evaluation ..... XII 5§
Aras river, Iran, dams contract . I 7§
Australian dams (ANCOLD report) ..... I 7§
California's dam safety supervision—Dukleth ..... IX 58*
Cofferdams, floating, to seal off spillway ..... VII 62†
Cofferdams from polythene ..... III 48
Cyprus, dams in ..... III 7§
Dam building threatened by insects ..... XII 5§
Dam safety in British Columbia—Hunt and Round .. I 27*
Dams that never end—Hansen and Avera ..... III 25*
Deflection measurement by laser—Harrison ..... IV 52*
Deformation, measuring by geodetic techniques—Kägi .... IV 45*
Earthquake effects on dams and reservoirs ..... VII 62†
Geology and environment dictate dam design—Hollingworth .... VI 48*
Grouting, bedrock ..... III 51†
ICOLD at Cape Town ..... IX 11§
XI 7§
XII 50*
Inspection for US dams ..... II 3§
Instrumentation, economics of—Haws ..... IV 27*
Instrumentation evaluation in USA ..... IX 5§
Izu dam failure, Japan ..... III 3§
Rhodesia, dam construction, (ICOLD report) ..... II 9§
Safer dams through good instrumentation ..... IV 25
Safety of dams, new perspectives X 57*
XI 52*
Stress meters, performance tests on—Carlson ..... IV 39*
Tana river multi-purpose dam, Kenya ..... V 9§
Tatar (USSR/Japanese) dam plans revived ..... IX 3§
Thomson dam, Melbourne, tunnel for ..... III 9§
Trashracks, automatic ..... VIII 58‡
Underground dams for Japan .... VII 60†
Wonogiri dam contract, Java .... VII 9§
World's major dams, tables of .. VIII 44

Dead Sea, replenishing the ..... VII 3§
Diffusers, straight-flow conical .... VI 65†

Drills—
Percussion and rotary drilling rig II 56
Ring drilling for shaft sinking—Svensson ..... VIII 38*

Droughts *see* Hydrology, Regulation and Storage

E

Earthquakes—
Acoustic emission monitoring—Koerner, McCabe and Lord ..... X 38*
Auburn dam, California, and earthquakes ..... XI 5§
Dams and reservoirs, earthquake effects on ..... VII 62†
Earthquake engineering ..... X 25
Forced vibration tests on earth dam—Scott and Abdel-Ghaffer X 41*
German earthquake ..... X 3§
Hazards, earthquake—Lane ..... X 36*
Los Angeles dam safe from earthquakes ..... XII 59†
Nurek impoundment triggers tremors ..... II 5§
Santa Felicia dam, USA, seismic studies at ..... IV 7§
Seismic stability of hydraulic fill dams—Leps, Strassburger and Meehan ..... X 27*
XI 43*

Egypt, Qattara project 'imperative'' X 3§

El Salvador—
Cerron Grande project—Valiente and Roddy ..... VII 42*
IDB loan for Lempa project ..... I 7§

Electrical Apparatus—
DC transmission station, Bi-pole Two, Canada, in operation .... XII 5§
Earthing grids at Pench, India .. VII 60†
Generator, 320 MVA, for Ritsem, Sweden—Holmström ..... VIII 28*
Generators, ''Fishwater'' for Bonneville ..... XII 3§
Generators for Karakaya, Turkey III 9§
Generators for Salto Santiago, Brazil ..... III 9§
Generators, hydro, repairing and uprating ..... VIII 55*
Reactive power control for hydro units ..... III 52†
Regulators, liquid, for Zarnowiec pumped-storage plant, Poland VIII 9§
Starters for slip-ring motors ..... III 54
Switchyards, designing to save space and money—Jadaun .... XI 37*
Synchronous machines, large, starting ..... VII 62†
Transformers for Perak river, Malaysia ..... X 7§
Transmission lines, protection ropes for ..... IV 66†

England—
Ardingly and Wimbleball reservoirs impounding ..... IV 5§
Pumped-storage plans for England ..... XII 3§

Environment—
Drau river environment problems, Austria ..... XII 58†
Wreck Cove, Canada, environmental studies for—Schiefer and Eedy ..... I 31*

F

Fiji, Monasavu-Wailoa project ..... VIII 9§

Finland—
Power swapping in Scandinavia II 5§
Water power in Finland—Korpela ..... III 38*
IV 60*

Fish—
Chinese carp for South African dams ..... VI 3§
"Fishwater" generators for Bonneville ..... XII 3§
Flaming Gorge dam, USA, fish arrangements ..... III 3§

Floods—
Se Bang Fai flood control, Mekong ..... IX 5§
Tisza river, Hungary, flood control on ..... VIII 60†
Two flood study models ..... I 64†

France, hydro machinery development ..... IX 62†

G

Gates and Valves—
Gate shaft pressures in tunnel gates—Sagar ..... III 37*
Globe valve ..... IX 64
High-head spillways, gates for .. XII 58†
Spillway gates for high heads ... VI 66†
Underflow gates, slightly immersed ..... VIII 60†
Volta river, gates for ..... X 7§

Geology, Rock Mechanics and Soil Mechanics—
Geology and environment dictate dam design—Hollingworth .... VI 48*
Poland, hydro-geology ..... II 54†
Taloro tunnel, Italy, geological study for ..... II 55†

Greenland, power from glaciers—Part 1 ..... V 42*

Groundwater *see* Hydrology, Regulation and Storage

H

Helicopters, too hot for, at Umzimvubu ..... I 5§

Hong Kong water supply dam completed ..... I 64†
XII 56‡

Hungary—
Flood control on Tisza river ..... VIII 60†
Gabcikovo-Nagymaros reservoir IV 3§
XII 7§
Tisza reservoir nears completion IX 3§

Hydraulics—
Drag, reducing, by polymers for hydro construction—Maksimovic ..... VI 53*
Hydraulic jump with recycled flow ..... II 54†
Venturi flume, building a ..... VII 60†

Hydrology, Regulation and Storage—
Analysis of reservoir sedimentation—Gill ..... XII 29*
Ardingly and Wimbleball reservoirs impounding, England .... IX 5§
Droughts, predicting ..... XII 58†
Frictional coefficients at short fetch ..... II 55†
Groundwater, investigating ..... III 52†
Hong Kong High Island reservoir progress ..... I 64†
Reservoir destratification system VI 63‡
Reservoir quality, monitoring ... III 49‡
Sub-reservoir mines, checks likely on ..... V 5§

I

Iceland, Sigalda dam, asphalt facing for—Thorlaksson, Olafsson and Jóhannesson ..... VIII 33*

India—
Andra Pradesh progress ..... III 3§
Bhakra dam instrumentation ..... III 51†
Earthing grids at Pench station . VII 60†
Floods in India ..... X 5§
North Karo river, power potential of ..... IV 66†
Salal dam accord ..... VII 5§
Thein dam, Punjab, earth and gravel ..... III 5§
Tidal power in India—Subrahmanyam ..... VI 42*

Indonesia—
Irrigation in Indonesia ..... XI 7§
Multi-purpose Wonogiri dam, Java ..... VI 9§
Wonogiri dam contract, Java .... VII 9§

Instruments and Meters—
Borehole deformation gauges .... IV 54
Borehole equipment ..... IV 53
Borehole temperatures ..... IV 54
Borehole transmitter ..... IV 53
Dam stability, piezo-electric instrument for ..... IV 62‡
Distance and angle measuring device ..... I 68
Distance measurement, multi-angle ..... IV 54
Distancer, infra-red ..... IV 54
Extensometer, tape ..... IV 59
Flow detectors, ultrasonic ..... III 54
Flow measurement, electrodeless IV 55
Flowmeter, magnetic ..... XII 62
Flowmeter, ultrasonic ..... II 56
Flowmeter, vortex ..... IV 55
Flowmeters, acoustic, open-channel—Lowell, Jr. ..... IV 49*
V 51*
Flow rate counter ..... IV 59
Level indication ..... IV 56
Light probe ..... XII 60
Liquid pressure transmission .... VII 59
Materials measuring kit ..... XII 60
Meters, rolling-piston ..... IV 55
Pendulum position without touching ..... IV 64‡
Plumbs, laser, automatic ..... IV 62‡
Position transmitter ..... I 66
Recorder, chart, multi-input ..... IV 58
Residual stress measurement .... IV 58
Settlement gauge ..... IV 56
Settlement plotting system ..... IV 56
Silt density gauge ..... IV 59
Strain gauge transmitter ..... IV 57
Strain gauges, weldable ..... IV 57
Strain indicator ..... IV 57
Stress meters, performance test on—Carlson ..... IV 39*
Vibration measuring device ..... III 50‡
Vibration monitor ..... IV 58
Water meter register, remote .... VIII 62

Inter-American Development Bank—
El Salvador loan for Lempa .. I 7§
San Carlos loan, Colombia .....VI 9§

Iran—
Aras river dams contract ..... II 7§
Hydro and irrigation prospects . VII 25*
Karun river development ..... II 55
Reza Shah Kabir commissioned I 3§
Reza Shah Kabir, intakes and penstocks of—Eberhardt ..... III 34*

Irrigation—
Bura project, Kenya ..... VIII 5§
Indonesia, irrigation in ..... XI 7§
Iran, hydro and irrigation prospects ..... VII 25*
Majes irrigation project, Peru ... III 51†
Philippines, Allah scheme ..... VII 9§
Swaziland sugar, irrigation for .. VI 7§
Vietnam scheme for rice production ..... X 7§

Israel—
Almagor to proceed ..... IV 7§
Dual purpose canal for Israel and Jordan ..... I 5§

Italy—
Edolo pumped-storage project, tunnelling for ..... IX 36*
Geological study for Taloro tunnel ..... II 55†

J

Japan—
Izu dam failure ..... III 3§
Takase development nears completion ..... XII 58†
Tatar dam plans revived ..... IX 3§
Underground dams ..... VII 60

Jordan, dual-purpose canal for Israel and Jordan ..... I 5§

K

Kaplan turbines, electronic cam for VIII 60†
Kaplan turbines, modern trends, —de Siervo and de Leva ..... I 52*
Karakaya, Turkey, Swiss turbines for ..... III 9§
Kenya's hydro potential ..... I 5§
Kielder's culvert, UK, protection for ..... XI 60‡
Kilickaya and Calmgoeze plants planned ..... V 9§
Kootenai studies begin ..... VI 5§
Kpong, Anglo-Japanese consortium for ..... IV 9§

L

La Grande, earth and rockfill dams—Paré, Larocque and Schneeberger ..... I 38*

Liberia, electricity systems to be expanded ..... IX 11§

Linings, Waterproof *see* Membranes, Waterproof

M

Malaysia—
Bersia and Kennering project ... VII 9§
Transformers for Perak river .... X 7§
Trengganu contract ..... I 7§

Manitoba, hydropower in—Bowden I 21*

Mannesmann Group report ..... XII 9§

Manning's coefficient for galvanized pipes—Peruginelli ..... II 49*

Mekong, See Bang Fai flood control IX 5§

Membranes, Waterproof—
Bituminous facings ..... XII 58†
PVC membrane for granular dam III 52†
Methane, effect on hydraulic structures ..... VI 65†

Mexico, La Angostura, last two units inaugurated ..... VIII 3§

Morocco, News in brief ..... V 9§

N

New Zealand—
Alternative energy sources sought ..... I 3§
Hydro potential, New Zealand's VIII 5§
Moawhango project, Tongariro, final stage ..... III 5§
Upper Waitaki development ..... IV 11§

Norway—
Power swapping in Scandinavia II 5§

Strandfossen turbine order ..... II 7§
Svartevann dam, Norway's highest ..... VIII 41*
Ulla-Førre scheme—Stokkebø and Tøndevold ..... VIII 23*

P

Pakistan—
Rock anchors at Tarbela ..... II 44*
Salal dam accord ..... VII 5§
Tarbela: plans, problems and success—Binger ..... VII 29*
Tarbela stilling basin model tests I 3§

Papua/New Guinea—
Mini plant schemes ..... I 7§
Purari river development ..... III 5§
Wabo project ..... II 5§

Paraguay—
Itaipu problems deepen ..... XII 3§
Itaipu treaty complaint ..... X 3§
Study for Itaipu and Yacyreta output ..... XII 9§
Yacyreta-Apipe, 15 bids ..... V 9§

Penstocks, Pipes and Pressure Shafts—
Agua Vermelha, Brazil, intake and penstock design—Besker X 46*
Bifurcated pipe, flow through a . V 62†
Conveying water without pipes . I 63‡
Downstream elevation, effect of, on pipe discharge ..... XII 59†
"Expanding" sewer with polymers ..... VI 64†
Kielder's culvert, UK, protection for ..... XI 60‡
Manning's coefficient for galvanized pipes—Peruginelli .... II 49*
Orifice and nozzle flows in pipes II 55†
Pipelayer, modified ..... III 54
Reza Shah Kabir, penstocks at—Eberhardt ..... III 34*
Steel-strip pipes, Dunlop ..... VI 64‡

Peru—
Majes irrigation project ..... III 51†
Mantaro extension contract ..... X 7§

Philippines—
Allah irrigation scheme ..... VII 9§
Chico dam, Manila, aid sought . VI 3§
Mindanao fifth plant, ADB loan for ..... III 9§
Underground station, first ..... XI 3§

Poland—
Hydro-geology ..... II 54†
Zarnowiec pumped-storage plant, liquid regulators for ..... VIII 9§

Portugal, hydropower "essential" II 5§

Power stations—
Crane capacity, estimating—Gordon ..... XI 25*
Ritsem, Sweden's most northerly station has largest set ..... IV 3§
Small plants for Colombia ..... XI 5§
Small stations, licensing, FERC XI 5§
World's largest hydro stations, tables of ..... VIII 47

Pumps, Pump-Turbines and Pumped Storage—
Edolo pumped-storage project, Italy, tunnelling for ..... IX 36*
England, pumped-storage plans for ..... XII 3§
German pumped-storage equipment ..... VI 66†
Grimsel-Oberaar pumped-storage system, Switzerland—Trucco and Zeltner ..... II 25*
New pump-turbine design ..... XI 62
Pumped-storage plans for Idaho XII 3§
Spiral casing stress in pumped-storage plants—Grein ..... II 48*
Sump pump ..... III 56
USSR, pumped-storage programme ..... VIII 3§
Zarnowiec pumped-storage plant, Poland, liquid regulators for .. VIII 9§

R

Research—
Centrifuge for model loading .... V 56‡
Dam stability, piezo-electric instrument for ..... IV 62‡
De-aerating system ..... VI 63‡
Pendulum position without touching ..... IV 64‡
Plumbs, laser, automatic ..... IV 62‡
Reservoir destratification system VI 63‡
Steel-strip pipes, Dunlop ..... VI 64‡

Resources—
Colombia, hydroelectric resources of—Oramas ..... III 41*
Finland, water power in—Korpela ..... III 39*
IV 60*
Kenya's hydro potential ..... I 5§
New Zealand's hydro potential VIII 5§
Portuguese hydropower "essential" ..... I 5§

River confluences with varying flow V 62†

Rumania, News in brief ..... V 9§

S

Safety, dams in British Colombia—Hunt and Round ..... I 27*

Scandinavia, power swapping in .. II 5§

Scotland's highest dam, Megget, for Lothian water supply ..... IX 50*

Sediment—
Analysis of reservoir sedimentation—Gill ..... XII 29*
Bed load and scour ..... IV 66†

Senegal, river development in ..... II 7§

Shotcrete *see* Tunnelling

Solar and hydropower combine for Austria—Weyss ..... II 32*

Spain—
Flood protection in Spain ..... V 3§
Spanish capacity to increase ..... VIII 5§

Stilling basins *see* Dams

Surge, Surge Chambers and Water Hammer—
Load rejection surges, calculating—Ramsahoye ..... III 29*
Surge tank oscillations on a small calculator—Nagarkar, Pattihal and Tiwari ..... X 50*
Surge tank solutions using programmable pocket calculators—Anderson ..... VII 50*

Sweden—
Energy policy ..... VIII 21
Mini hydropower for Sweden ... V 5§
Power swapping in Scandinavia II 5§
Ritsem 320 MVA generator—Holmstrom ..... VIII 28*
Ritsem, Sweden's largest set at . IV 3§

Switzerland—
Beznau dam replacement ..... XI 62†
Graubunden, hydropower in ..... VII 60†
Grimsel-Oberaar pumped-storage system—Trucco and Zeltner .. II 25*
Pumped storage in Switzerland—Stürzinger ..... II 29*
Uprating Switzerland's hydro plants—Weber, Nüssli, Jacobsen, and Bohun ..... II 39*

T

Taiwan, hydro in ..... V 5§

Tarbela *see* Pakistan

Thailand—
Power transmission in Thailand XII 9§
Srinagarind multi-purpose scheme—Kanchanophol ..... III 40*

Tidal power—
Bulb units, large, for tidal power plant—Casacci ..... VI 45*
VII 47*
Fundy tidal power, reassessing—Clark ..... VI 35*
Fundy tidal power site proposal V 3§
India, tidal power in—Subrahmanyam ..... VI 42*
Problems and benefits ..... VI 27
Retiming increases value ..... XI 3§
Russian tidal power investigations ..... X 5§
Status of tidal power—Shaw .... VI 29*
Upgrading tidal power ..... III 50‡

Tunnels—
Drifting and tunnelling, development trends ..... IX 25*
Edolo pumped-storage project, Italy, tunnelling for ..... IX 36*
Geological study for Taloro tunnel, Italy ..... II 55†
Pictures, tunnelling in ..... IX 61
Prestressed concrete pressure tunnels—Matt, Thurnherr, and Uherkovich ..... V 23*
Right bifurcating pressure tunnels, analysis and design of—Thareja and Ratarajan ..... IX 43*
Shotcrete for underground support ..... IX 37*
X 54*
Shotcrete to reinforce tunnels ... VI 5§
Steel linings, buckling of, with shear connectors ..... VI 58*
X 5§
Swedish approach to rock support—Kramers ..... IX 31*
Thomson dam, Melbourne, tunnel for ..... III 9§

Turbines—
Africa, turbines for ..... XII 5§
Bearings, turbine ..... V 64
Blade design by finite element methods ..... XI 62†
Bulb turbines, experimental studies on ..... III 51†
Bulb turbines, large, for tidal power plants—Casacci ..... VI 45*
VII 47*
Cavitation, zero, in turbines—Pawlikewich and Sinclair ..... I 46*
Flange bolts, stress relaxation in VII 62†
Inga II turbine, Zaire ..... XI 5§
Kaplan turbines, electronic cam for ..... VIII 60†
Kaplan turbines, modern trends, Part II—de Siervo and de Leva I 52*
Karakaya, Turkey, Swiss turbines for ..... III 9§
Pelton turbines, modern design trends—de Siervo and Lugaresi XII 40*
Runner blades, stress in ..... VI 66†
Runner flutter ..... V 62†
Runner transport problem for BC Hydro's Peace Canyon project IX 5§
Scale effect on turbines ..... V 62†
Soviet turbines, 60 years' progress ..... IV 66†
Strandfossen, Norway, turbine order ..... I 7§
Thrust bearings, lubrication of .. V 62†

Turkey—
Aslantas dam design—Vorobjev V 37*
Karakaya, Swiss machines for .. III 9§
Kilickaya and Camlgoeze plants planned ..... V 9§

U

Uruquay, Salto Grande a "world example" ..... XII 5§

USA—
Alaska dam evaluation ..... XII 5§
Auburn dam and earthquakes ... XI 5§
Bonneville dam "fishwater" generators ..... XII 3§
Bonneville dam, new powerhouse at ..... III 52†
Boyd's Corner dam in danger ... X 3§
California's dam safety supervision—Dukleth ..... IX 58*
Dam building threatened by insects ..... XII 5§
Dam instrumentation evaluation IX 5§
Flaming Gorge dam, fish arrangements ..... III 3§
Inspection for US dams ..... II 3§
Kootenai studies begin ..... VI 5§
Los Angeles dam safe from earthquakes ..... XII 59†
Lower Snake multi-purpose scheme ..... I 64†
Phoenix flood detention dam .... VI 7§
Pumped-storage plans for Idaho XII 3§

WATER POWER & DAM CONSTRUCTION

£12.00 (UK) } **per year**
$52.00 (other areas) } **including postage**

International Water Power & Dam Construction provides unique world-wide coverage of the field of hydroelectric development and the design and construction of dams for all purposes (water supply, irrigation and flood control, as well as power generation). To join the many specialists currently receiving regular copies of this important journal, please complete the form and send your remittance (payable to IPC Business Press Ltd.) to:
